

ROHIT KHATRI

Rajasthan, India

✉ rohitkhatri.dev@gmail.com | ✖ rohitxdotdev | 🐙 github | 🌐 portfolio

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Golang

Frontend: React.js, Next.js

Backend & APIs: Node.js, Express.js, REST APIs, Serverless APIs

AI & LLM: LLM Integration, Multi-Model Routing, AI Pipelines

Databases: PostgreSQL, Supabase, MongoDB, Firebase/Firestore

EXPERIENCE

ReactJs Developer

May 2025 – Present

- Built and scaled core frontend features for an internal React-based SaaS application, focusing on reusable components, maintainable architecture, and UX improvements.
- Owned end-to-end feature delivery, including API integration, frontend logic and calculations, no-code tooling, and production deployment.
- Contributed to the Next.js marketing landing page, delivering UI updates, performance optimizations, and feature integrations aligned with product releases.

EDUCATION

Master's in Computer Application (MCA)

2025 – 2027

Manipal University Jaipur

Bachelor of Computer Applications (BCA)

2022 – 2025

Dezyne École College, Ajmer

Percentage: 64%

PROJECTS

Logic UI Builder - AI-Powered UI Generation Platform

[Live](#)

- Developed a multi-stage LLM pipeline for generating React/TSX interfaces from natural-language prompts through structured UI specifications, component planning, and code synthesis.
- Implemented multi-model routing, fallback handling, and compile-aware retry loops to improve generated-code reliability across different UI generation tasks.
- Built streaming generation and incremental screen regeneration with persistent project state, enabling real-time previews and targeted modifications.
- *Tech Stack: React, TypeScript, LLM APIs, AI Pipelines*

Colorcaratiers - Jewelry E-commerce

[Live](#)

- Built a monorepo-based microservices e-commerce system with Auth, Product, Order services and an API Gateway.
- Developed admin and customer-facing React applications with scalable UI and business logic.
- Integrated Firebase (Auth, Firestore, Storage) and Razorpay for real-time data and secure payments.
- *Tech Stack: Next.js, React, Node.js, Express.js, Nx, Firebase, Razorpay*
